Karina Lira Ohara
Desenvolvedora web

ABOUT ME

As a back-end developer, I am constantly seeking opportunities to grow and gain more experience in the job market. My expertise lies in PHP, SQL, and Linux, but I am also eager to further develop my skills in Python, JavaScript, jQuery, and other technologies.

One of my greatest strengths is my ability to approach problems with objectivity and logical reasoning. I enjoy tackling complex challenges and finding practical solutions that meet the needs of end-users.

If you're looking for a skilled and dedicated developer who is passionate about continuous learning and improvement, I'd be thrilled to connect with you. Let's explore how we can work together to create innovative solutions that drive your business forward.

FORMATION

- Etec School

SKILLS

- PHP
- React
- SQL
- NO SQL
- CSS
- HTML
- Linux
- Framework Bootstrap
- C

EXPERIENCES

04-2022 até 11-2022 Solar Tools

In this project, I assisted in the creation and modeling of a web software for solar energy companies management, with my main role being the back-end coding, problem-solving, and testing.

I was responsible for ensuring the quality of the code developed by performing tests and resolving issues. Additionally,

I also worked on the design and creation of the software, contributing to its architecture and functionalities. Throughout the project, I developed skills in teamwork, problem-solving, and software testing.
